

## PL-200 Dumps

### Microsoft Power Platform Functional Consultant

<https://www.certleader.com/PL-200-dumps.html>

### NEW QUESTION 1

- (Exam Topic 1)

You need to design the guest check-in solution.

Which technologies should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

#### Answer Area

Requirement	Technology
Develop the base check-in solution.	<input type="checkbox"/> Xamarin app <input type="checkbox"/> Power Apps portal <input type="checkbox"/> Model-driven app <input type="checkbox"/> Canvas app
Access the check-in solution on the check-in devices.	<input type="checkbox"/> Traditional desktop application <input type="checkbox"/> Web browser <input type="checkbox"/> Power Apps mobile app <input type="checkbox"/> Dynamics 365 for phones and tablets

- A. Mastered  
B. Not Mastered

**Answer:** A

#### Explanation:

Canvas app,

Power Apps mobile app

<https://docs.microsoft.com/en-us/power-apps/maker/canvas-apps/offline-apps>

### NEW QUESTION 2

- (Exam Topic 1)

You need to design the resort portal's email registration process.

Which solutions should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Solution
Implement the invitation code redemption process.	<input type="checkbox"/> Auto-populate the invitation code field on the sign-in screen from the email link. <input type="checkbox"/> Embed the invitation code in the email link URL. <input type="checkbox"/> Send the customer their username and temporary password in the email link.
Validate the user's email.	<input type="checkbox"/> Two-factor authentication <input type="checkbox"/> Azure Active Directory authentication <input type="checkbox"/> Social provider sign-in <input type="checkbox"/> Invitation code sign-up

- A. Mastered  
B. Not Mastered

**Answer:** A

#### Explanation:

Graphical user interface, text, application, email Description automatically generated

### NEW QUESTION 3

- (Exam Topic 1)

You need to design the resort portal's email registration process.

Which solutions should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Requirement	Solution
Implement the invitation code redemption process.	<div> <div></div> <div> Auto-populate the invitation code field on the sign-in screen from the email link.  Embed the invitation code in the email link URL.  Send the customer their username and temporary password in the email link. </div> </div>
Validate the user's email.	<div> <div></div> <div> Two-factor authentication  Azure Active Directory authentication  Social provider sign-in  Invitation code sign-up </div> </div>

- A. Mastered  
B. Not Mastered

**Answer:** A

**Explanation:**

Requirement	Solution
Implement the invitation code redemption process.	<div> <div></div> <div> Auto-populate the invitation code field on the sign-in screen from the email link.  Embed the invitation code in the email link URL.  Send the customer their username and temporary password in the email link. </div> </div>
Validate the user's email.	<div> <div></div> <div> Two-factor authentication  Azure Active Directory authentication  Social provider sign-in  Invitation code sign-up </div> </div>

#### NEW QUESTION 4

- (Exam Topic 1)

You need to create the FAQ solution content What should you do first?

- A. AI Builder  
B. Suggest topics  
C. Automate  
D. Trigger phrases

**Answer:** B

**Explanation:**

You need to make sure there are three main steps need to do while doing import FAQ and add the topic to your bot application.

- > Import Suggested Topics from FAQ webpage.
- > Add a topic.
- > Enable the topics Reference:

<https://social.technet.microsoft.com/wiki/contents/articles/53820.power-virtual-agents-faq-chatbot.aspx>

#### NEW QUESTION 5

- (Exam Topic 1)

You need to design and create the solution for gathering contact information from guests for marketing purposes.

What should you use? To answer, select the appropriate options In the answer area. NOTE: Each correct selection is worth one point.

Action	Solution
Extract business card data.	<div> <div></div> <div> AI Builder  Common Data Service  Power Virtual Agents  Power Automate </div> </div>
Implement the contact gathering solution.	<div> <div></div> <div> Create a new entity extraction component.  Integrate the solution with Azure Cognitive Services.  Use a prebuilt AI model. </div> </div>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Action	Solution
Extract business card data.	<div><div>AI Builder</div><div>Common Data Service</div><div>Power Virtual Agents</div><div>Power Automate</div></div>
Implement the contact gathering solution.	<div><div>Create a new entity extraction component.</div><div>Integrate the solution with Azure Cognitive Services.</div><div>Use a prebuilt AI model.</div></div>

NEW QUESTION 6

- (Exam Topic 1)

You need to embed the business card solution in the check-in app. What you use?

- A. control
- B. Button control
- C. Custom component
- D. AI Builder component

Answer: D

NEW QUESTION 7

- (Exam Topic 2)

You need to assign 10 percent of the Qualification records to the QV queue through table configuration by using a Power Automate flow. What should you do?

- A. Create an autonumber column on the Qualification table and assign its qualification records if the number cleanly divides by 10.
- B. Create a calculated column on the Service Request table that sums the number of qualification records, generates a random number between zero and the number from the new field, and assigns each qualification record if the number generated is 10 percent or less of the value of the new field.
- C. Create a roll-up column on the Service Request table that is the count of qualification records, generates a random number between zero and the number from the new field, and assigns each qualification record if the number generated is 10 percent or less of the value of the new field.
- D. Create an autonumber column on the Service Request table and assign its qualification records if the number cleanly divides by 10.

Answer: B

NEW QUESTION 8

- (Exam Topic 2)

You create a desktop flow to interact with a certification authority’s website. You need to get data in and out of the desktop flow. How should you set up the input and output parameters? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Parameter direction	Configuration
Inbound	<div><div></div><div>Copy and paste qualification data into the desktop flow.</div><div>Run a cloud flow from the Dataverse qualification record to send data to the desktop flow.</div><div>Connect by using the Dataverse connector from the desktop flow and retrieve the qualification data.</div></div>
Outbound	<div><div></div><div>Copy and paste the verification data into the qualification record.</div><div>Send data from the desktop flow to a cloud flow to update the qualification record.</div><div>Connect by using the Dataverse connector from the desktop flow and the qualification record</div></div>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Box 1: Connect by using the Dataverse connector from the desktop flow and retrieve the qualification data. All information sent by clients for services is stored in Microsoft Dataverse with a model-driven app as the interface.  
Qualification verification  
The qualification table contains details about an individual school degree, professional qualifications, and other qualifications that must be verified.

A service request can have one or more Qualification records associated with it.  
Record status is pending verification until the initial team member finishes, at which point the member changes the status to Complete.  
When all qualification records related to a service request are verified either by manual or automated processes, the results are made available to ADatum Corporation's client.  
In the rare event that results are questioned, a new service request is created and verified independently of the previous work that took place.  
Box 2: Send data from the desktop flow to a cloud flow to update the qualification record. To complete a service request, users perform the following actions:  
Send a templated email by using Microsoft Outlook to the client after all qualifications for a service request are checked.  
Change the service request status to Completed. Currently, service requests do not indicate when all Qualification records are addressed.

#### NEW QUESTION 9

- (Exam Topic 2)

You need to implement the requirement for the VP of sales. What should you do?

- A. Use a test account with a base security role with QV security added.
- B. Add the System Administrator security role to your user account.
- C. Use a test account with only QV security added.
- D. Add QV security to your user account.

**Answer:** A

#### Explanation:

A VP of sales requires a test environment to demonstrate to potential clients the security policies that are included in their initial offering. Currently, testing the new QV functionality outside the development environment is not possible due to corporate security policies requiring the same security role across all environments.

Note: One of the security best practices in Dynamics 365 is to use the base security role as a baseline and apply that role to all Users. The base security role will include all the common/basic permissions that are required to have access to the system.

To set up the base security role for the first time

- > create a new empty security role.
- > add the minimum privileges required to access the system.
- > add the privileges required for the basic functionalities.
- > test the role with the test user account.
- > add the permissions to the entities that all users can access (e.g. reference data).

Reference: <https://linnzawwin.blogspot.com/2020/07/minimum-privileges-required-to-log-in.html>

#### NEW QUESTION 10

- (Exam Topic 2)

You need to capture the Date Completed value from the website using a desktop flow. Which method should you use?

- A. Use optical character recognition (OCR) on the screen to locate and extract the value.
- B. Display an input dialog and prompt the user to enter the value.
- C. Extract the value from the window the browser is using.
- D. Retrieve the value from the HTML element in the webpage.

**Answer:** C

#### Explanation:

Record the name of the QV team member who performed the work and the date completed.

#### NEW QUESTION 10

- (Exam Topic 3)

You set up a new instance of Dynamics 365 for Customer Service. Users report a variety of issues working with cases on mobile devices. You need to configure the mobile app to be able to view cases. NOTE: Each correct selection is worth one point.

Scenario	Action needed
Users cannot see case records on mobile devices.	<div>▼</div> <ul style="list-style-type: none"> <li>Configure mobile settings set on the case entity level.</li> <li>Configure mobile settings at the field level within the case form.</li> <li>Configure a security role in the mobile permission set for appropriate users.</li> </ul>
Users can open cases but cannot see the subject of the case.	<div>▼</div> <ul style="list-style-type: none"> <li>Configure mobile settings set at the case entity level.</li> <li>Configure mobile settings at the field level within the case form.</li> <li>Configure a security role in the mobile permission set for appropriate users.</li> </ul>
Users report that they cannot access the system from the Dynamics 365 mobile app.	<div>▼</div> <ul style="list-style-type: none"> <li>Configure mobile settings set at the case entity level.</li> <li>Configure mobile settings at the field level within the case form.</li> <li>Configure a security role in the mobile permission set for appropriate users.</li> </ul>

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

- \* 1. User is able to login but can't see Case Records --> "Configure Mobile Settings on Case Entity Level"
  - \* 2. Users can open cases but cannot see the subject of the case - "configure mobile settings at the field level within the case form"
  - \* 3. User reports that they cannot access the system from Dynamics 365 mobile app --> Configure a security role in the mobile permission set of the appropriate user
- <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/mobile-app/set-up-dynamics-365-for-phon>

**NEW QUESTION 11**

- (Exam Topic 3)

You need to design the FAQ solution to handle unknown responses.

Which component should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Requirement	Component
Handle an unknown question from a guest in a conversation.	<div> <div>Escalate</div> <div>Fallback topic</div> <div>Failure path</div> </div>
Redirect a quest with an unknown question to a live staff member.	<div> <div>Power Apps</div> <div>Power Virtual Agents web application</div> <div>Microsoft Teams</div> <div>Omnichannel for Dynamics 365 Customer Service</div> </div>

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/power-virtual-agents/advanced-hand-off>

**NEW QUESTION 12**

- (Exam Topic 3)

You are designing a desktop user interface (UI) flow. The UI flow automates legacy software.

You need to prepare data for transfer to a Microsoft SharePoint list.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Select information to pass to the SharePoint list.	
Copy and paste the text in the output definition window.	
On the Outputs menu of the UI flow, choose <b>Select text on screen</b> .	<div> <div>⬅</div> <div>➡</div> </div>
Enter a name and description for the output.	<div> <div>⬆</div> <div>⬇</div> </div>
Start recording the UI flow.	
Stop the recording and save the flow.	

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/power-automate/ui-flows/inputs-outputs-desktop#use-outputs-to-extract-inform>

NEW QUESTION 13

- (Exam Topic 3)

A company uses Power Apps with Microsoft Dataverse.

The company enables auditing on the Dataverse database. The company tenant reaches the maximum storage capacity.

You need to delete some auditing data.

Which three deletion options should you use? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. by table
- B. by record
- C. between two specified dates
- D. by column
- E. older than a specified date

Answer: BCE

NEW QUESTION 16

- (Exam Topic 3)

You create and publish a Power BI report that contains an embedded canvas app. The report will be used by multiple people.

The canvas app has an issue that must be corrected. You update the canvas app.

You need to ensure that the updated canvas app is available in the published Power BI report. What should you do?

- A. Publish the Power BI report from Power BI Desktop.
- B. Manually refresh the data source on the published Power BI report.
- C. Publish the Power BI report from Power BI Desktop and reshare to any users.
- D. Publish the canvas app.

Answer: B

Explanation:

➤ If you change the data fields associated with the visual, you must edit the app from within the Power BI service by selecting the ellipsis (...) and then selecting Edit. Otherwise, the changes won't be propagated to Power Apps, and the app will behave in unexpected ways.

➤ The Power Apps visual can't trigger a refresh of Power BI reports and Power BI data sources from within Power BI Desktop. If you write back data from the app to the same data source as the report, your changes won't be reflected immediately in Power BI Desktop. Changes are reflected on the next scheduled refresh.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/powerapps-custom-visual#limitations-of-the-po>

NEW QUESTION 17

- (Exam Topic 3)

You ate a Dynamics 365 help desk administrator

You need to create a dashboard that displays information on help desk cases that ate handled each week. Which dashboard components should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area	Requirement	Component type
	Add a tag chart by using opened cases.	<div>System chart</div> <div>Personal chart</div> <div>Area chart</div>
	Add a stacked column chart shared with your team.	<div>System chart</div> <div>Personal chart</div> <div>Area chart</div>
	Add a Microsoft Power BI visualization.	<div>System chart</div> <div>Personal chart</div> <div>Area chart</div>
	Add a chart from a view that a user creates.	<div>System chart</div> <div>Personal chart</div> <div>Area chart</div>
	Add a doughnut chart that shows cases by owner.	<div>System chart</div> <div>Personal chart</div> <div>Area chart</div>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

System Personal Personal

Personal System

<https://docs.microsoft.com/en-us/dynamics365/customer-engagement/basics/add-edit-power-bi-visualizations-da>

NEW QUESTION 20

- (Exam Topic 3)

A company is training an AI model using a custom table to determine the amount of time it takes to deliver a package based on several key fields.

The testing data used to train the model is used for all training and regression testing scenarios and is considered complete data.

The trained model predicts a 2 percent variance between the estimated delivery time and the actual delivery time of packages. The executive sponsors reject the model because the actual variance is at 15 percent. You need to address the sponsors' concern. What should you do?

- A. Reduce the size of the data used within the model.
- B. increase the size of the data used with the model.
- C. Use sample training data from Microsoft
- D. Replace the training data with real-world data.

**Answer: D**

**Explanation:**

Note: Start using AI Builder with sample data

Don't have any data of your own to create a model? No problem! We've got you covered.

Sample data is available for several AI Builder model types, together with instructions for working with the sample data.

Reference: <https://docs.microsoft.com/en-us/ai-builder/samples>

**NEW QUESTION 21**

- (Exam Topic 3)

Your organization does not permit the use of custom code for solutions. You need to create a view that can be viewed by all users in an organization. Where should you create the view?

- A. Microsoft Visual Studio
- B. Maker portal
- C. Advanced Find
- D. System Settings

**Answer: C**

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/create-edit-views-app-designer>

**NEW QUESTION 23**

- (Exam Topic 3)

You are modifying a model-driven app. You set up a customer table in Microsoft Power Platform to retrieve

user data. You set up a form with the following columns for users to enter their data. The form includes the following columns:

Column	Data type
Country/region	Choices (multi-select)
Passport ownership	Choice (yes /no)
Passport expiration date	Text

The form must do the following:

- The Country/region column must automatically populate with US when English is chosen as a language. If the user selects Other for this column, the column must remain blank so that user can enter a value.
- The Passport expiration date column must appear only if the user selects Yes in the Passport ownership column.

You need to configure the app with the least amount of effort.

What should you configure? To answer, drag the appropriate solution component to the correct requirements. Each solution component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

- A. Mastered
- B. Not Mastered

**Answer: A**

**Explanation:**

Graphical user interface Description automatically generated with low confidence

**NEW QUESTION 27**

- (Exam Topic 3)

You are a consultant. A client asks you to remove several solutions in one of their Microsoft Dataverse environments

The client wants to know what effect removing the solutions will have on the rest of the system. You need to explain the results of removing the solutions.

Which components be affected? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Solution description	Component or components removed
An unmanaged solution contains a custom table. The table is in a parent-child relationship with another table.	<div>The solution only.</div> <div>The solution and the lookup column.</div> <div>The solution, the table, and any data in the table.</div>
A managed solution patch contains an update to a column label. The column is used in several forms and views.	<div>The solution and the updated column label.</div> <div>The solution, the column, and any data in the column.</div> <div>The solution, the table, and the updated column label.</div>
A managed solution that was created by an independent solution provider (ISV) contains a custom table and changes to the site map.	<div>The solution only.</div> <div>The solution and the site map.</div> <div>The solution, the table, and any data in the table.</div>

- A. Mastered  
B. Not Mastered

Answer: A

**Explanation:**

Graphical user interface, text, application, email Description automatically generated

**NEW QUESTION 29**

- (Exam Topic 3)

You create a report by using Power BI Desktop and publish the report to the Power BI service. You enable Power BI visualization embedding in a model-driven app.

You need to configure the model-driven app to display a Power Bi tile

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
<div>Pin the Power BI report to a new dashboard in the Power BI service</div>	
<div>Create a personal dashboard in the model-driven app</div>	
<div>Share the dashboard with the appropriate user in the app</div>	
<div>Add a Power BI tile to the dashboard and select the Power BI dashboard in the app</div>	
<div>Ensure the dashboard is available to the appropriate security roles</div>	

- A. Mastered  
B. Not Mastered

Answer: A

**Explanation:**

- \* 1.- Add a Power BI tile to the dashboard and select the power BI dashboard in the app  
2.- Create a new Power BI personal dashboard in the model-driven app  
\* 3.- Ensure the dashboard is available to the appropriate security roles  
4.- Pin the power BI report to a new dashboard in the Power BI service

**NEW QUESTION 31**

- (Exam Topic 3)

You manage the Dynamics 365 Customer Service environment for an organization. Microsoft SharePoint will not be deployed in the environment for a year.

You need to integrate Microsoft Office 365 solutions with the Dynamics 365 instance to help the sales team with internal collaboration efforts.

Which three solutions can you currently implement? Each correct answer presents part of the solution. NOTE:

Each correct selection is worth one point.

NOTE: Each correct selection is worth one point.

- A. Microsoft OneDrive for Business
- B. Microsoft Yammer
- C. Microsoft OneNote
- D. Microsoft Skype for Business
- E. Microsoft Exchange Online

**Answer:** BDE

**Explanation:**

References:

<https://docs.microsoft.com/en-us/dynamics365/customer-engagement/admin/add-office-365-online-services>

#### NEW QUESTION 35

- (Exam Topic 3)

A company uses Common Data Service to manage prospects. The company has a business process flow named BPFA that is associated with the Prospect entity to streamline the prospect management process.

You add a field named Category to the Prospect entity. You create additional business process flows. You apply the business process flows to Prospect records based on the selected category. Users can switch to any other newly configured business process flows but must not use BPFA.

You need to configure the solution.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution. NOTE Each correct selection is worth one point.

- A. Remove all of the privileges for BPFA.
- B. Deactivate BPFA.
- C. Use a business rule to prevent users from switching to BPFA.
- D. Change the display order of the business process flows to move BPFA to the bottom of the list.

**Answer:** AB

#### NEW QUESTION 40

- (Exam Topic 3)

You create a new solution for a business process.

The business process includes uploading specific file types to a web service.

You need to ensure that the business process works the same way anywhere the solution is deployed. Which option should you use? To answer, drag the appropriate options to the correct configurations. Each

option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Options

Connection reference

Environment variable

Solution system settings

Answer Area

Configuration	Option
Blocked file types	Option
URL to a web service	Option

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Box 1: Solution system settings

For Power Apps in Settings > Customizations > Customize the System you can configure email and document management, activate or deactivate processes, and more.

Box 2: Environment variable

When should Environment variables be used? Some examples include:

When an input parameter needs to change across environments and should not be hard-coded. For example, a URL that points to a different resource in development and production environments.

If you're building a solution where your customer is required to provide an input value. Application setup pages.

Incorrect:

A connection reference is a solution component that contains information about a connector. Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/advanced-navigation> <https://powerapps.microsoft.com/en-us/blog/environment-variables-available-in-preview/>

#### NEW QUESTION 42

- (Exam Topic 3)

You are configuring Microsoft Dataverse security. You plan to assign users to teams. Record ownership and permissions will differ based on business

requirements.  
You need to determine which team types meet the requirements.  
Which team type should you use? To answer, drag the appropriate team types to the correct requirements. Each team type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.  
NOTE: Each correct selection is worth one point.

Team types

Access team

Azure Active Directory group team

Microsoft Teams team

Answer area

Requirement	Team Type
Ability to own records in Dataverse	
Provides permissions without a security role assigned	

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Box 1: Microsoft Teams team  
Dataverse supports two types of record ownership. Organization owned, and User or Team owned. This is a choice that happens at the time the table is created and can't be changed. For security purposes, records that are organization owned, the only access level choices is either the user can do the operation or can't. For user and team owned records, the access level choices for most privileges are tiered Organization, Business Unit, Business Unit and Child Business Unit or only the user's own records. That means for read privilege on contact, I could set user owned, and the user would only see their own records.

Box 2: Access team  
An access team doesn't own records and doesn't have security roles assigned to the team. The team members have privileges defined by their individual security roles and by roles from the teams in which they are members. The records are shared with an access team and the team is granted access rights on the records, such as Read, Write or Append.

Reference:  
<https://docs.microsoft.com/en-us/power-platform/admin/wp-security-cds>  
<https://docs.microsoft.com/en-us/powerapps/developer/data-platform/use-access-teams-owner-teams-collaborate>

NEW QUESTION 47

- (Exam Topic 3)  
You are creating a business process flow for a Power Apps app. The business process flow must meet the following requirements:

- Must be available offline.
- Send an email to the team when a record is created. You need to set up business process flow.

What should you do? To answer, select the appropriate options in the answer area. Each correct selection is worth one point

Requirement

Configuration

Make it available offline.

Ensure that the business process flow is referencing one table.

Ensure that the business process flow is referencing two tables.

Ensure that the business process flow is referencing one table per stage.

Send an email to the team.

Create a step.

Create a stage.

Create a required column.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Graphical user interface, text, application Description automatically generated

NEW QUESTION 52

- (Exam Topic 3)  
You create a Power Apps app for Microsoft Teams using Microsoft Dataverse for Teams. Users report that they are unable to view the app in Teams. You need to ensure that users can access the app. What should you do?

- A. Share the app with a security group by using the Maker portal.
- B. Share the app with a security group in Teams.
- C. Request that a tenant administrator pin the app to the app bar in Teams.
- D. Publish the app by using the Maker portal.
- E. Share the app with individual users by using the Maker portal.

Answer: C

**NEW QUESTION 53**

- (Exam Topic 3)

You have a canvas app.

The canvas app must store data in a variable that is available only to the current screen. You need to create the variable.

Which two functions should you use? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Navigate
- B. UpdateContext
- C. Set
- D. Collect
- E. SaveData

Answer: AB

**NEW QUESTION 55**

- (Exam Topic 3)

A company uses Common Data Service to store sales data.

For the past few quarters, the company has experienced a decrease in sales revenue. The company wants to improve sales forecasting.

The company plans to use AI Builder to implement the solution. You select fields that will be used for prediction.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Export data from Common Data Service into Microsoft Excel

Train the category classification AI model by using Common Data Service data

Train the AI model by using data exported to Microsoft Excel

Publish the AI model

Use the model with Power Apps

Import the AI model analysis into Common Data Service

Train the prediction AI model by using Common Data Service data

Answer Area

>

<

↑

↓

- A. Mastered
- B. Not Mastered

Answer: A

**Explanation:**

Graphical user interface, application Description automatically generated

Step 1:

Before you can use your prediction model, you have to train it to perform the way you want. Step 2:

After you train your model, publish it to make it available.

Publish your model when you want to make it available to users in your Power Apps environment. Step 3: Use the model with Power Apps

Reference:

<https://docs.microsoft.com/en-us/ai-builder/prediction-train-model>

**NEW QUESTION 59**

- (Exam Topic 3)

A company uses a Power Apps app with Microsoft Dataverse.

The company requires the import of records into Dataverse. Duplicate records in the data must be deleted without user intervention.

You create a duplicate detection rule.

You need to configure the rule for the data import. Which option should you configure?

- A. Enable the Templates for Data Import option.
- B. Enable the When a record is created or updated option.
- C. Disable the Allow Duplicates option.

D. Enable the During data import option.

Answer: D

**NEW QUESTION 63**

- (Exam Topic 3)

You manage Dynamics 365 for a company.

You must prevent users from launching and using Power Automate. You need to hide the Flows button on the user interface.

Which configuration setting should you change?

- A. the Customizations section of System Settings
- B. the Site Map
- C. the Buttons tab of Flow
- D. the Entity component of the default solution

Answer: A

**Explanation:**

Reference:

<https://www.inogic.com/blog/2018/10/show-or-hide-microsoft-flow-button-in-dynamics-365/>

**NEW QUESTION 68**

- (Exam Topic 3)

A company uses a model-driven app for customer support. The company has the following requirements for the app:

- Send an email in real-time to customers when they enter their email address.
- Send an email to customers at the same time every day for cases that are open for more than 24 hours. The solution should require the least amount of customization.

Components

Power Apps component framework (PCF) control

Classic workflow

Power Automate flow

JavaScript

Answer Area

Requirement

Send email to customer when email address entered.

Send email at the same time every day.

Component

- A. Mastered
- B. Not Mastered

Answer: A

**Explanation:**

Components

Power Apps component framework (PCF) control

Classic workflow

Power Automate flow

JavaScript

Answer Area

Requirement

Send email to customer when email address entered.

Send email at the same time every day.

Component

Classic workflow

Power Automate flow

**NEW QUESTION 72**

- (Exam Topic 3)

You are designing a Power Virtual Agents chatbot for a store.

You need to teach the chatbot to acknowledge the store's product categories and the variations within specific categories.

You need to create custom entities to provide the chatbot with the knowledge of the product categories. Which features should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Feature
Analyze misspellings, grammar variations, and semantic variations.	Slot filling Synonyms Smart matching Topics Fuzzy matching
Make the bot smarter by expanding the matching logic.	Slot filling Synonyms Topics
Extract a category selected by a user during a conversation into a variable for later use.	Slot filling Synonyms Smart matching Topics

- A. Mastered  
B. Not Mastered

Answer: A

Explanation:

Smart match Synonyms Topic  
<https://docs.microsoft.com/en-us/power-virtual-agents/advanced-entities-slot-filling>

NEW QUESTION 77

- (Exam Topic 3)

You are a Dynamics Sales administrator for a car dealership. The dealership uses only out-of-the-box functionality. When a new car is sold, the salesperson uses a Word template to generate a letter from the quote to thank the customer. You need to determine if you can revise the template. Which Word template change can you make?

- A. Add the Discount field conditionally.  
B. Format the table to have alternating color rows.  
C. Format the Created On field to a long date format.  
D. Add the address of the customer.D18912E1457D5D1DDCBD40AB3BF70D5D

Answer: D

NEW QUESTION 78

- (Exam Topic 3)

You create workflows to automate business processes.

You need to create a workflow that automatically sends emails based on a mail merge template. The workflow must contain the following configurations:

- Run immediately.  
➤ Validate when a condition is met.  
➤ Perform an action when a condition is met.

To answer, select the appropriate configuration in the answer area.

NOTE: Each correct selection is worth one point.

Workflow Requirement	Configuration Option
Run immediately.	<div><div></div><div>Approve the workflow.</div><div>Configure the workflow to run now.</div><div>Configure child workflow to run now.</div></div>
Validate when a condition is met.	<div><div></div><div>Publish workflow.</div><div>Subject contains data.</div><div>Trigger when a Power Automate button is pressed.</div></div>
Perform an action when a condition is met.	<div><div></div><div>Send an email.</div><div>View chart.</div><div>Update a security role.</div></div>

- A. Mastered  
B. Not Mastered

Answer: A

Explanation:

Graphical user interface, text, application, email Description automatically generated

NEW QUESTION 83

- (Exam Topic 3)

You use Power Virtual Agents to create a bot that will answer and transfer help desk calls.

You create topics that contain nodes and functions. The company has the following requirements for the bot:

- When a caller states the word issue, help, or problem, the bot must respond with the question. "How can we help you today?"
- When the bot responds with the question, "How can we help you today?", the bot must provide the caller with the choices of hardware, software or other
- When the caller asks a question, the bot must save the response so that it can perform an action on the response.

You need to configure the bot.

Which nodes or functions should you use? To answer, select the appropriate options in the answer area.

Requirement	Node/Function
Caller states <b>issue, help, or problem.</b>	<div><div>Trigger phrase</div><div><div>Trigger phrase</div><div>Question</div><div>Message</div><div>Action</div></div></div>
Bot provides choices.	<div><div>Question</div><div><div>Action</div><div>Question</div><div>Message</div><div>Variable</div></div></div>
Responses are temporarily saved.	<div><div>Identifier</div><div><div>Action</div><div>Variable</div><div>Trigger</div><div>Identifier</div></div></div>

- A. Mastered  
B. Not Mastered

Answer: A

Explanation:

## Answer Area

### NEW QUESTION 84

- (Exam Topic 3)

A company has marketing teams for different regions.

A user creates and publishes a chatbot within Microsoft Teams for their specific marketing team.

The base metrics retrieved by the chatbot are relevant to all marketing teams. The other marketing teams request access to the chatbot.

You need to publish the chatbot to the entire company. What should you do?

- A. Configure the chatbot to be used with the Teams channel.
- B. Submit the chatbot for admin approval.
- C. Copy the published chatbot link and email it to the other teams
- D. Invite the other teams to the team that has the chatbot.
- E. Export the chatbot and import it into a corporate environment.

**Answer: B**

#### Explanation:

Show to teammates and shared users

You can share your bot by adding it to the Microsoft Teams app store, Built for your org > Built by your colleagues section. Only your teammates and shared users will find the bot there.

Important

Only teammates or shared users can find and install the bot in the Microsoft Teams app store Built by your colleague section. The bot will not show for everyone in the organization even if it is configured to allow everyone to use the bot. To show the bot to the organization, submit the bot for admin's approval to show in Microsoft Teams app store Built by your org section.

Reference:

<https://docs.microsoft.com/en-us/power-virtual-agents/teams/publication-add-bot-to-microsoft-teams-teams>

### NEW QUESTION 88

- (Exam Topic 3)

You create functionality for a company. The functionality includes a Microsoft Dataverse table with a form for data entry. The functionality will be distributed to other lines of business in the company, each with its own Dataverse environment.

New forms must not be created in order for updates to the functionality to work correctly. You need to package the new functionality for distribution.

What should you do?

- A. Use a patch solution and disable the ability to create new forms for the table.
- B. Use a managed solution and include only the needed form.
- C. Use an unmanaged solution and include only the needed form.
- D. Use a managed solution and disable the ability to create new forms for the table.

**Answer: B**

#### Explanation:

Managed solutions are used to deploy to any environment that isn't a development environment for that solution. This includes test, UAT, SIT, and production environments. Managed solutions can be serviced independently from other managed solutions in an environment. As an ALM best practice, managed solutions should be generated by exporting an unmanaged solution as managed and considered a build artifact. Additionally:

You can't edit components directly within a managed solution.

Reference: <https://docs.microsoft.com/en-us/power-platform/alm/solution-concepts-alm>

### NEW QUESTION 89

- (Exam Topic 3)

You are a Dynamics 365 Sales administrator for a software company. The sales team wants to attach a large number of supporting documents to customer records, but management does not want to incur the cost of additional storage.

The company does not have any Office 365 application integrations enabled. You need to recommend a storage solution that keeps storage costs low. Solution: Enable OneNote integration.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION 92

- (Exam Topic 3)

A farm uses a canvas app to manage schedules for planting fields with crop seeds. The farm uses business intelligence to provide recommendations for schedule changes based on weather data.

You must implement a business rule that changes information for several forms in the canvas app based on business intelligence data.

You need to configure the business rule. Which scope should you use?

- A. Table
- B. All Forms
- C. Form specific

Answer: A

NEW QUESTION 95

- (Exam Topic 3)

You create a canvas app that uses data from a Microsoft SQL Server database.

You use a dataflow to move some of the data from the database to Microsoft Dataverse. Users will filter the data by using the app.

You need to filter data in the dataflow and in the canvas app.

Which tools should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Tools

Power Fx

Power Query

T-SQL

Kusto

Answer Area

Requirement

Filter data in the dataflow.

Filter data in the canvas app.

Tool

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Tools

Power Fx

Power Query

T-SQL

Kusto

Answer Area

Requirement

Filter data in the dataflow.

Filter data in the canvas app.

Tool

Power Query

T-SQL

NEW QUESTION 96

- (Exam Topic 3)

You plan on implementing complex business logic in Microsoft Dataverse tables by using Power Automate flows.

You realize that the functionality required to implement the business logic is not available in a Power Automate flow.

The new business logic must work in multiple Dataverse tables. In addition, the operation must return a value after it finishes and must be able to run from an existing Dataverse action.

You need to recommend the method to implement the missing logic. What should you recommend?

- A. Scheduled workflow
- B. Bound action
- C. Custom API
- D. Unbound action

Answer: D

Explanation:

<https://docs.microsoft.com/en-us/power-automate/dataverse/bound-unbound>

<https://docs.microsoft.com/en-us/power-apps/developer/data-platform/custom-api>

NEW QUESTION 101

- (Exam Topic 3)

A company is building a Power Virtual Agents chatbot.

Users in the accounting department require access to collaborate with the building of the bot. Users in the sales department require access to only chat with the bot.

You need to configure the bot.

Which sharing options should you use? To answer, drag the appropriate sharing options to the correct requirements. Each sharing option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Sharing options

Users

Active Directory security groups

Everyone in the organization

Answer Area

NEW QUESTION 104

- (Exam Topic 3)

You ate a Dynamics 365 Customer Engagement administrator. You create workflows to automate business processes. You need to configure a workflow to meet the following requirements:

- Be triggered when a condition is met.
- Run immediately.
- Perform an action when a condition is met.

How should you configure the workflow? To answer, select the appropriate configuration in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Workflow Requirement

Be triggered when a condition is met.

Run immediately.

Perform an action when a condition is met.

Configuration Option

Publish workflow.

Subject contains data.

Trigger when a Microsoft Flow button is pressed.

Approve the workflow.

Configure the workflow to run now.

Configure child workflow to run now.

Send an email.

View chart.

Update a security role.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

- 1) Be triggered when a condition is met - Subject contains data
- 2) Run Immediately - Configure the workflow to run now
- 3) Perform an action when a condition is met - send an email

NEW QUESTION 105

- (Exam Topic 3)

On a Contact record, a user creates a Note record that contains the word running.

One week later, the user reports that they cannot find the Contact record associated with the Note record. You need to find the Note record.

Solution: Use Relevance Search to search for the word run. Does the solution meet the goal?

- A. Yes
- B. No

**Answer:** A

**Explanation:**

Relevance Search brings the following benefits:

- Finds matches to any word in the search term in any field in the entity. Matches may include inflectional words, like "stream," "streaming," or "streamed."
- Includes the ability to search documents found in Notes and Attachments on Emails and Appointments

Reference: <https://docs.microsoft.com/en-us/power-platform/admin/configure-relevance-search-organization#what-is-releva>

**NEW QUESTION 109**

- (Exam Topic 3)

You are using the Data import wizard to import records into the account table from a CSV file. The CSV-to-table mapping is as following:

- Name column represents the account and maps to the Account column.
- TIE Parent Name column represents the holding company of the account with subsidiaries underneath Records that are imported into the table are only related to other records in the file.

You need to configure the import to create the relationship between records. What should you do?

- A. Map Parent Name in the CSV file to the Parent Account colum
- B. Select Account as lookup criteria
- C. Lookup the record IDs Of the records in the ParentAccount colum
- D. Add the record IDs new column in the fil
- E. Map the new column to the ParentAccount column.
- F. Map Parent Name in the file to the Parent Account colum
- G. Select Parent Account as lookup criteria
- H. Create an alternate key the account table by using the Account Name colum
- I. DO not map parent Name in file.

**Answer:** C

**Explanation:**

Add a new column for the self-referential mapping.

Reference: <https://docs.microsoft.com/en-us/power-apps/developer/data-platform/import-data>

**NEW QUESTION 110**

- (Exam Topic 3)

- Add data to the new table.
- Delete an unused area from the site map.

The components must be transported to a different environment.

You need to determine the method required to transport each component.

Which method should you use? To answer, drag the appropriate methods to the correct components. Each method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

**NEW QUESTION 115**

- (Exam Topic 3)

A company creates a Power Automate cloud flow for a Power Apps app.

The cloud flow must send a daily email that contains a list of year-to-date (YTD) totals. You need to configure the flow.

Which feature should you use?

- A. Parallel branch
- B. Loop
- C. Condition
- D. Wait

Answer: C

#### NEW QUESTION 117

- (Exam Topic 3)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are creating Power Virtual Agents chatbot that captures demographic information about customers. The chatbot must determine the group a customer belongs to based on their age. The age groups are:

- > 0 - 17
- > 18 - 25
- > 26 - 35
- > 36 - 55
- > 55 - 100

You need to configure the chatbot to ask a question that can be used to determine the correct age group. Solution: Use Date and time for Identify in the question and then add branches that use conditional logic to

determine the age group.

Does this meet the goal?

- A. Yes
- B. No

Answer: B

#### NEW QUESTION 120

- (Exam Topic 3)

A company has a sales application that is supported by an Azure SQL database. You are developing a Power Apps app for use by customer service agents. The app must reference customer data from the sales application. Data in the sales application is constantly changing and must not be replicated in Microsoft Dataverse

Some customer data is considered sensitive. You must protect data for specific fields when users view data in the app.

You need to configure table creation for the app.

How should you configure the app? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point

#### Requirement

#### Action

Dataverse table type to create for the referenced customer data.

- Create a virtual table.
- Create an activity table.
- Create a user-owned table.
- Create an organization-owned table.

Protect sensitive customer data for specific fields.

- Create an alternate key.
- Create a secured column.
- Implement input method editor (IME) mode.
- Set the value of the visible property of the fields to false.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

#### Requirement

#### Action

Dataverse table type to create for the referenced customer data.

- Create a virtual table.
- Create an activity table.
- Create a user-owned table.
- Create an organization-owned table.

Protect sensitive customer data for specific fields.

- Create an alternate key.
- Create a secured column.
- Implement input method editor (IME) mode.
- Set the value of the visible property of the fields to false.

#### NEW QUESTION 124

- (Exam Topic 3)

You plan to create a Power Virtual Agents bot. The bot must support single sign-on.

You need to publish the bot.

Which two locations should you use? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Microsoft Teams
- B. Mobile app developed for iOS and Android
- C. Azure Bot Service channels
- D. Website developed using pro developer tools

Answer: AD

**NEW QUESTION 125**

- (Exam Topic 3)

You plan to create a dataflow to import data into Microsoft Dataverse by using Power Query. The dataflow has the following requirements:

- A table of aggregated data must be created in dataflow storage.
- A unique identifier must be created for the table. You need to configure the dataflow.

Which solutions should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Solution
Table of aggregated data	<div><div>Merge query</div><div>Fact table</div><div>Merge query</div><div>Linked entity</div><div>Computed entity</div></div>
Unique identifier	<div><div>Key column</div><div>Key column</div><div>Pivot column</div><div>Alternate key</div></div>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

Requirement	Solution
Table of aggregated data	<div><div>Merge query</div><div>Fact table</div><div>Merge query</div><div>Linked entity</div><div>Computed entity</div></div>
Unique identifier	<div><div>Key column</div><div>Key column</div><div>Pivot column</div><div>Alternate key</div></div>

**NEW QUESTION 128**

- (Exam Topic 3)

A user needs to create a Power Apps portal app.

The user is getting a permission denied error when creating the portal app. You need to configure permissions to create the portal app.

Which three permissions should you configure? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. In the Power Platform admin center, ensure that the user account has read-write access.
- B. In Azure Active Directory, assign the Contributor role to the application at the subscription scope.
- C. In Azure Active Directory, ensure that the user has permission to register an app.
- D. In the Power Platform admin center, change the portal app owner to the user.
- E. In the Power Platform admin center, ensure that the user has the System administrator security role.

Answer: ACE

Explanation:

Reference: <https://docs.microsoft.com/en-us/power-apps/maker/portals/create-common-problems> <https://docs.microsoft.com/en-us/power-apps/maker/portals/create-portal>

<https://docs.microsoft.com/en-us/azure/active-directory/develop/howto-create-service-principal-portal#required>

**NEW QUESTION 129**

- (Exam Topic 3)

You are a Dynamics 365 Customer Service administrator.

You need to configure the following automation for the sales team:

- \* Send an email when the status changes on an Opportunity.
- \* Text the sales manager when an Opportunity is created.
- \* Create a Wunderlist task when an Opportunity is open for 30 days.

Which tool should you use for each requirement? To answer, select the appropriate options in the answer area. NOTE Each correct selection is worth one point.

Automation	Tool
Email when the status changes.	<div><div></div><div>Dynamics 365 workflow</div><div>Microsoft Flow</div><div>Business Process Flow</div></div>
Text when the Opportunity is created.	<div><div></div><div>Dynamics 365 workflow</div><div>Microsoft Flow</div><div>Business Process Flow</div></div>
Create a Wunderlist task.	<div><div></div><div>Dynamics 365 workflow</div><div>Microsoft Flow</div><div>Business Process Flow</div></div>

- A. Mastered  
B. Not Mastered

Answer: A

Explanation:

Automation	Tool
Email when the status changes.	<div><div></div><div>Dynamics 365 workflow</div><div>Microsoft Flow</div><div>Business Process Flow</div></div>
Text when the Opportunity is created.	<div><div></div><div>Dynamics 365 workflow</div><div>Microsoft Flow</div><div>Business Process Flow</div></div>
Create a Wunderlist task.	<div><div></div><div>Dynamics 365 workflow</div><div>Microsoft Flow</div><div>Business Process Flow</div></div>

#### NEW QUESTION 130

- (Exam Topic 3)

You modify a model-driven app for a bicycle repair help desk. The model-driven app is for help desk users when customers have an issue with their bicycle. After you add a custom table named bicycle, you configure the table for Microsoft Dataverse search. The table will contain information from callers about their bicycles. The account table is related to the custom table. Contact information is brought over to the custom table.

You add the following columns to the table:

- > Bicycle type
- > Tire brand
- > Special equipment

Users must be able to perform the following types of searches:

- > Search for all customers who have a bicycle type of Contoso and live in Florida.
- > Search all tables for any record that contains the word broken.
- > You need to decide which type of search will give you the results desired.

Which search should you configure? To answer, drag the appropriate search types to the correct requirements. Each search type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Search types

Dataverse search

Quick find

Advanced find

Answer Area

Requirements

Customer with bicycle type of Contoso and lives in Florida

Includes the word **broken** across tables

Search type

- A. Mastered  
B. Not Mastered

Answer: A

Explanation:

Text Description automatically generated  
Box 1: Advanced find  
Operators for advanced search: Lets you use simple Boolean operators in your search term and craft the query to get the results you want.  
Box 2: Dataverse search  
Dataverse search helps you quickly find what you're looking for. It delivers fast and comprehensive results across multiple tables in a single list, sorted by relevance.  
Reference: <https://docs.microsoft.com/en-us/power-apps/user/quick-find> <https://docs.microsoft.com/en-us/power-platform/admin/configure-relevance-search-organization>

NEW QUESTION 133

- (Exam Topic 3)  
Your organization does not permit the use of custom code for solutions. You need to create a view that can be viewed by all users in an organization. Where should you create the view?

- A. List view of the entity  
B. Microsoft Visual Studio  
C. Templates area  
D. Maker portal

Answer: A

Explanation:

Edit a public or system view in app designer  
You can change the way a public or system view is displayed by adding, configuring, or removing columns.  
➤ In the Views list for a table, select the Show list of references down arrow Drop Down. Edit View.Graphical user interface, application Description automatically generated  
➤ Next to the view you want to edit, select Open the View Designer Open view Designer. The view opens in the view designer.  
When you edit a public or system view, you must save and publish your changes before they will be visible in the application.  
Reference:  
<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/create-edit-views-app-designer>

NEW QUESTION 135

- (Exam Topic 3)  
You are designing a canvas app that connects to Common Data Service.  
You need to configure the app to meet the requirements and ensure that the canvas app is available offline. What should you implement? To answer, select the appropriate options in the answer area.  
NOTE: Each correct selection is worth one point.

Requirement	Function
Pass values from the current screen when moving to another screen.	<div><div></div><div>Navigate</div><div>Back</div><div>MovePrevious</div></div>
Display data to a user when the app is offline.	<div><div></div><div>LoadData</div><div>LoadDateOffline</div><div>ShowData</div></div>

- A. Mastered  
B. Not Mastered

**Answer:** A

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/offline-apps>

#### NEW QUESTION 136

- (Exam Topic 3)

You have a business process flow.

You need to update the business process flow while minimizing administrative and maintenance efforts. What should you implement? To answer, drag the appropriate features to the correct requirements. Each

feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Features	Requirement	Feature
Action step	Allow users to navigate to the previous stage only from specific stages.	Feature
Classic workflow		
Power Automate flow	Create checklist records in specific stages on demand.	Feature

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Features	Requirement	Feature
Action step	Allow users to navigate to the previous stage only from specific stages.	Power Automate flow
Classic workflow		
Power Automate flow	Create checklist records in specific stages on demand.	Action step

#### NEW QUESTION 140

- (Exam Topic 3)

A bank uses Power BI visualizations to help determine whether they should loan money to a customer. The bank has three different visuals that are part of a Power BI report. The bank uses a set of four risk variables that indicate whether the customer is creditworthy.

You must create a mechanism so that bank employees can change the values of the four risk variables. Changes to the value of any variable must cause the three visualizations to update.

You need to create the solution.

Which action should you perform? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Action
Update the visualizations when users change the values of the risk variables.	<div> <div></div> <div>Embed a canvas app in a Power BI report.</div> <div>Embed a Power BI report in a model-driven app.</div> <div>Embed a model-driven app in a Power BI report.</div> </div>
Ensure that users can adjust the values of the four risk variables that contribute to a customer's credit risk.	<div> <div></div> <div>Use Power BI tiles.</div> <div>Use Power Apps visuals.</div> <div>Use the Power BI service.</div> </div>

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Box 1: Embed a Power BI report in a model-driven app

You can embed a Power BI report in a model-driven app main form. Box 2: Use the Power BI service.

The Power BI cloud service works with Microsoft Dataverse apps to provide a self-service analytics solution. Power BI automatically refreshes the app's data displayed. With Power BI Desktop or Microsoft Excel, Power Query for authoring reports and Power BI for sharing dashboards and refreshing data from model-driven apps, your users have a powerful way to work with your app's data.

Reference:

<https://docs.microsoft.com/en-us/power-apps/maker/model-driven-apps/embed-powerbi-report-in-system-form>

<https://docs.microsoft.com/en-us/power-apps/maker/model-driven-apps/use-power-bi>

**NEW QUESTION 144**

- (Exam Topic 3)

You are configuring a new Power Apps portal. You have two web roles, one for authenticated users and one for anonymous users. You grant the Anonymous Users role to users.

A test user reports that they can access the home page but cannot view a page linked from the home page. You need to determine why the test user cannot view the portal page.

What is the cause of the issue?

- A. Maintenance mode is enabled on the portal.
- B. The setting to make the page available to everyone is disabled.
- C. The Authenticated Users Web role does not have permission to view the page.
- D. Inherited permissions are not enabled for the linked page.

**Answer:** D

**Explanation:**

<https://docs.microsoft.com/en-us/powerapps/maker/portals/configure/webpage-access-control>

**NEW QUESTION 149**

- (Exam Topic 3)

You need to create a Power Automate desktop flow.

What are two possible ways to create the flow? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Record mouse and keyboard events.
- B. Configure a pre-built template.
- C. Use pre-built actions.
- D. Create models by using Microsoft Visio.

**Answer:** AC

**Explanation:**

C: Desktop flows are used to automate tasks on the Web or the desktop. Using Power Automate you can automate tasks on the desktop as well as the Web.

A: Alternatively, you can use the two legacy methods of creating desktop flows: Windows recorder (V1) and Selenium ID. With these you record mouse and keyboard events.

Reference:

<https://docs.microsoft.com/en-us/power-automate/desktop-flows/create-flow> <https://docs.microsoft.com/en-us/power-automate/desktop-flows/create-web>

**NEW QUESTION 151**

- (Exam Topic 3)

You plan to implement Microsoft Dataverse.

You must track changes for two columns in the Account table. You must maintain a historical log of changes for the two columns and track only what is necessary.

You configure the appropriate organization settings.

You need to configure the system to track changes for the two columns.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Enable auditing for the Account table.
- B. Enable auditing for the two specific columns.
- C. Enable change tracking for the Account table.
- D. Enable change tracking for the two specific columns.

**Answer:** AB

**Explanation:**

By setting the IsAuditEnabled property of a table's definition and the IsAuditEnabled property of each desired column's definition to true, data changes to records of those tables can be logged by the platform.

Note: There are three levels where auditing can be configured: organization, table, and column. The organization level is the highest level, followed by the table level, and finally the column level. For column auditing to take place, auditing must be enabled at the column, table, and organization levels. For table auditing to take place, auditing must be enabled at the table and organization levels.

<https://docs.microsoft.com/en-us/powerapps/developer/data-platform/configure-entities-attributes-auditing>

**NEW QUESTION 152**

- (Exam Topic 3)

You are creating Power BI reports for a company.

A company that has a model-driven app wants to use Power BI reports within the app. You create the reports. You need to ensure that these reports are available

within the app.

Which two actions should you perform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Share the Power BI report to all users.
- B. Add the Power BI report to the Site Map dashboards.
- C. Create a PCF file.
- D. Use the native reports in model-driven apps.
- E. Add the Power BI report to a dashboard in the model-driven app.

**Answer:** BE

**Explanation:**

Reference: <https://docs.microsoft.com/en-us/power-apps/maker/model-driven-apps/add-powerbi-visual>

#### NEW QUESTION 153

- (Exam Topic 3)

A company uses Common Data Service to manage account and contact information. The company plans to use the AI Builder model to make key business decision.

You need to integrate prebuilt AI Builder models with Power Automate.

Which models should you use? To answer, select the appropriate option the answer area. NOTE Each correct selection is worth one point.

Scenario	Model
Extract specific text from a PDF document.	<div><div></div><div>Text recognition model</div><div>Key phrase extraction model</div><div>Text recognition model and key phrase extraction model</div></div>
Determine the likelihood that customers will purchase additional products.	<div><div></div><div>Sentiment analysis model</div><div>Category classification model</div><div>Entity extraction model</div><div>Prediction model</div></div>

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/ai-builder/prebuilt-sentiment-analysis> <https://docs.microsoft.com/en-us/ai-builder/prebuilt-key-phrase>

<https://docs.microsoft.com/en-us/ai-builder/prebuilt-text-recognition>

#### NEW QUESTION 157

- (Exam Topic 3)

A company has locations in the United States, Brazil, India. and Japan. The company conducts financial transactions in all of these regions.

Financial transactions in Brazil are going to stop, but the office will remain open.

Users must longer be able to create records associated with the Brazilian currency. Historical records must remain intact

You need to configure Microsoft Dataverse to meet the requirement What should you do?

- A. Rename the Brazilian currency.
- B. Delete the Brazilian currency record.
- C. Disable the Brazilian language pack
- D. Deactivate the Brazilian currency record.

**Answer:** D

**Explanation:**

You can't delete currencies that are in use by other records; you can only deactivate them. Deactivating currency records doesn't remove the currency information stored in existing records, such as opportunities or orders. However, you won't be able to select the deactivated currency for new transactions.

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/manage-transactions-with-multiple-currencies>

#### NEW QUESTION 161

- (Exam Topic 3)

You have a form that displays a custom field from an entity.

A customer wants to restrict users from filtering on the custom field. You need to prevent users from filtering the field in Advanced Find. What should you modify?

- A. Fields in the Edit Filter Criteria option of the Quick Find view
- B. the Field Security field on the Field Properties form
- C. a searchable field on the Field Properties form
- D. Fields in the Add Find Columns option of the Quick Find view

**Answer:** C

**Explanation:**

<https://community.dynamics.com/365/b/dynamics365apps/posts/kb-understanding-dynamics-365-field-ssearcha>

**NEW QUESTION 165**

- (Exam Topic 3)

A company plans to implement AI Builder to add intelligence to several business processes. Each business process uses different sources and produces different outputs.

You need to determine which AI Builder model types to use.

Which model types should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Recognition requirement	Model type
Identify a person's age in a paragraph when written using the pattern <b>twenty years old</b> .	<div>▼</div> <div>Entity extraction</div> <div>Text recognition</div> <div>Key phrase</div>
Identify items and prices from an invoice.	<div>▼</div> <div>Form processing</div> <div>Text recognition</div> <div>Object detection</div>

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/ai-builder/form-processing-model-overview> <https://docs.microsoft.com/en-us/ai-builder/entity-extraction-overview>

**NEW QUESTION 169**

- (Exam Topic 3)

You attempt to deactivate several currencies in a Microsoft Dataverse environment. You are not able to deactivate one of the currencies.

You need to determine why you cannot deactivate the currency.

What is the reason?

- A. You are not the currency record owner.
- B. The currency is used by an active business process.
- C. The currency is the base currency.
- D. The currency is used by another record.

**Answer:** C

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/powerapps/developer/data-platform/org-service/web-service-error-codes> <https://docs.microsoft.com/en-us/power-platform/admin/manage-transactions-with-multiple-currencies>

**NEW QUESTION 170**

- (Exam Topic 3)

You plan to create a dataflow by using Power Query to transform the data. You observe 'hat some cells display an error instead of the expected data. You need to obtain more details about the errors. What should you do?

- A. Select the row that includes the cell with the error.
- B. Use the Flow Checker.
- C. Select the cell with the error.
- D. Use the App Checker.
- E. Use the Advanced Editor.

**Answer:** C

**NEW QUESTION 174**

- (Exam Topic 3)

You are creating a business rule to implement new business logic.

You must apply the business logic to a canvas app that has a single screen named Screen1. You need to configure the scope for the business rule.

Which scope should you use?

- A. All Forms
- B. Entity

- C. Screen1
- D. Global

Answer: B

Explanation:

Note: Some terminology has changed. Entity is now Table. If you're building a Canvas app, you must use table (entity) as the scope.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-create-business-rule>

NEW QUESTION 178

- (Exam Topic 3)

A company deploys several model-driven apps. The company uses shared devices in their warehouse. The devices are always powered on. Users log on to the devices and then launch the apps to perform actions.

Unauthorized users recently uploaded several files after another user failed to log out of a device. The company needs to prevent these incidents from occurring in the future.

You need to configure the solution to prevent the reported security incidents. What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Action
Prevent unauthorized access to devices.	<div><div>▼</div><div><div>Set an inactivity limit in the user's group policy.</div><div>Set a timeout in the Power Platform admin center.</div><div>Configure access controls in Azure Active Directory.</div><div>Configure a Power Automate flow to poll for user inactivity on the devices.</div></div></div>
Prevent users from uploading a specific type of file.	<div><div>▼</div><div><div>Enter the restricted file types in the SharePoint admin center.</div><div>Enter the allowed file types in the Power Platform admin center.</div><div>Enter the restricted file types in the Power Platform admin center.</div></div></div>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Graphical user interface, text, application Description automatically generated

Box 1: Set a timeout in the Power Platform admin center.

To enforce users to reauthenticate after a pre-determined period of time, admins can set a session timeout for their individual environments. Users can only remain signed in the application for the duration of session. The application signs out the user when the session expires. Users need to sign in with their credentials to return to customer engagement apps.

Note: Configure session timeout

- > In the Power Platform admin center, select an environment.
- > Select Settings > Product > Privacy + Security.
- > Set Session Expiration and Inactivity timeout. These settings apply to all users. Incorrect:

Configure inactivity timeout

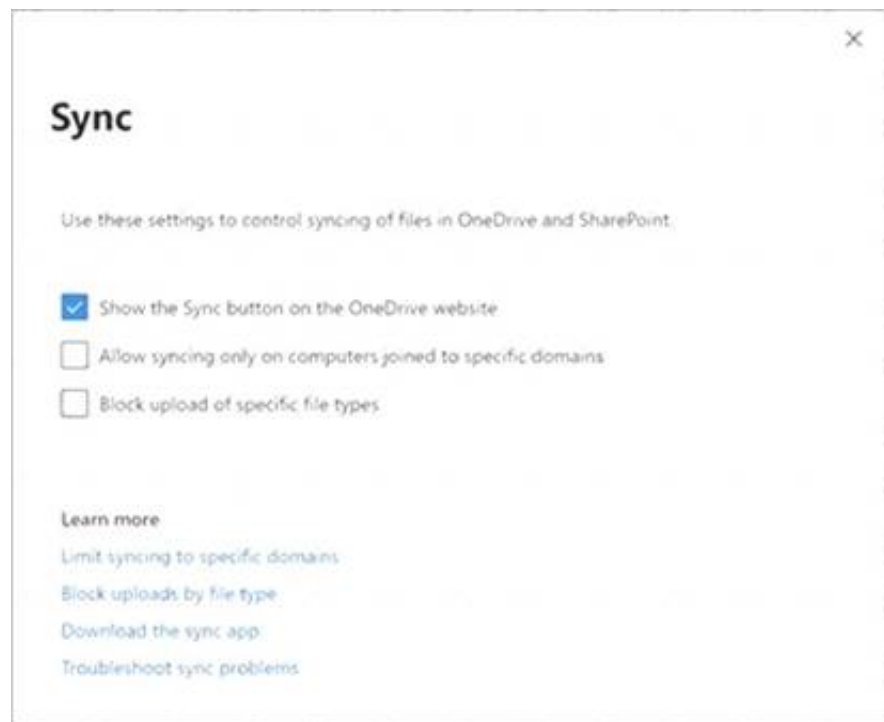

- > In the Power Platform admin center, select an environment.
- > Select Settings > Product > Privacy + Security.
- > Set Session Expiration and Inactivity timeout. These settings apply to all users. Box 2: Enter the restricted file types in the SharePoint admin center.

To block uploading of specific file types

- > Go to the Settings page of the new SharePoint admin center,
- > Select Sync.

Graphical user interface, text, application Description automatically generated

- Select the Block upload of specific file types check box.
- Enter the file name extensions you want to block, for example: exe or mp3.
- Select Save.

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/user-session-management> <https://docs.microsoft.com/en-us/onedrive/block-file-types>

**NEW QUESTION 182**

- (Exam Topic 3)

You are designing a Power Virtual Agents chatbot.

You observe that the environment you plan to use does not appear as an option in the Power Virtual Agents user interface.

You need to ensure that you can create the chatbot in the environment that you want to use.

What should you do?

- A. Create an environment in a supported region.
- B. Convert the environment to a sandbox environment.
- C. Change the region for the environment.

**Answer:** A

**Explanation:**

The environment doesn't show up in the drop-down menu of Power Virtual Agents

Your environment might not show up in the drop-down menu due to one of the following:

The environment doesn't have a database created. To resolve this issue, go to [admin.powerplatform.com](https://admin.powerplatform.com) to create a database in your environment.

The environment is created in an unsupported region.

Reference: <https://docs.microsoft.com/en-us/power-virtual-agents/environments-first-run-experience>

**NEW QUESTION 185**

- (Exam Topic 3)

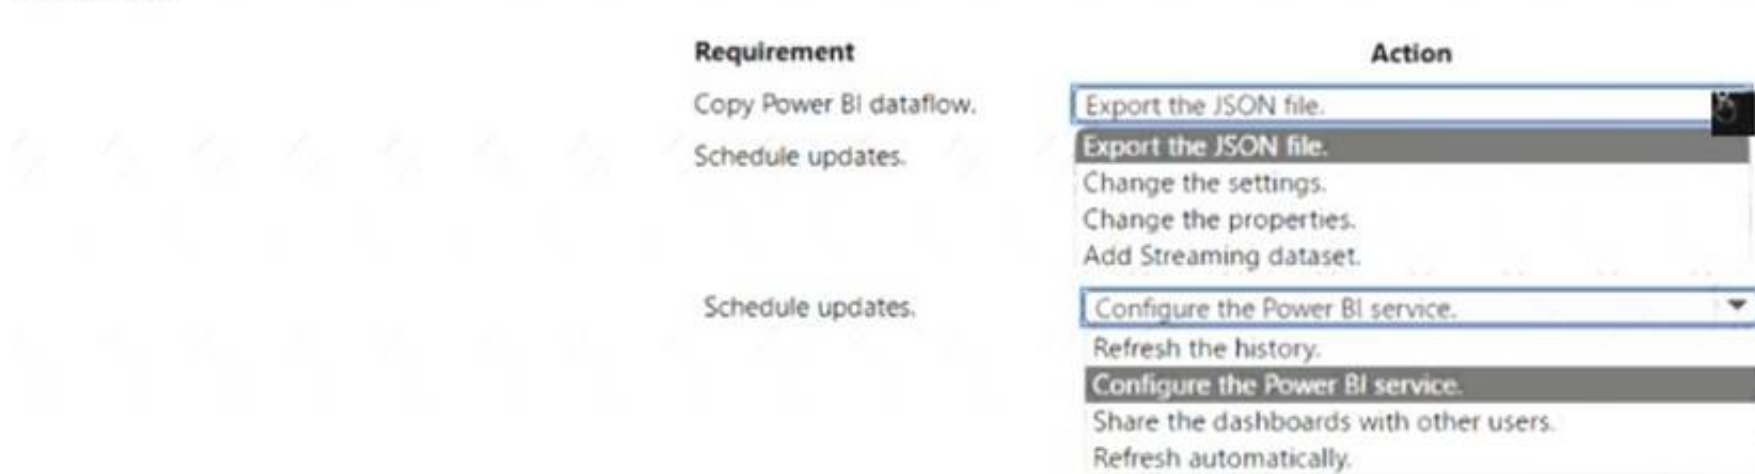

You plan to create a Power BI dataflow.

The Power BI dataflow has the following requirements:

- Be able to create a copy of the dataflow to separate Power BI workspaces
- Schedule the dataflow to update every day at 11:00 AW. You need to configure the dataflow.

What should you do? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Answer Area**

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Answer Area

Requirement	Action
Copy Power BI dataflow.	Export the JSON file.
Schedule updates.	Export the JSON file.
	Change the settings.
	Change the properties.
	Add Streaming dataset.
Schedule updates.	Configure the Power BI service.
	Refresh the history.
	Configure the Power BI service.
	Share the dashboards with other users.
	Refresh automatically.

NEW QUESTION 187

- (Exam Topic 3)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a Dynamics 365 Sales administrator for a software company. The sales team wants to attach a large number of supporting documents to customer records, but management does not want to incur the cost of additional storage.

The company does not have any Office 365 application integrations enabled. You need to recommend a storage solution that keeps storage costs low. Solution: Enable OneDrive for Business.

Does this meet the goal?

- A. Yes
- B. No

Answer: B
